Futurist Typography and the Liberated Text Alan Bartram,2005-01-01 A unique look at how Futurism influenced and changed twentieth century graphic design In the early decades of the twentieth century European artists poets and designers called for the destruction of outdated assumptions about vision and language Numerous manifestos resulted demanding new artistic forms None of these manifestos was more aggressive and poetic or wider in scope than Filippo Tomasso Marinetti's Futurist Manifesto of 1909 Painting sculpture literature architecture theatre cinema and music were all caught up in its net Typography until then a distant relative in the arts also played a major role in Marinetti's program Written by leading design scholar Alan Bartram this fascinating book examines the rise and evolution of the Futurists approach to typography and graphic design placing it within the context of contemporary artistic and literary movements The volume features examples of some eighty Futurist books or other designs for print many of them relatively unknown or previously unpublished accompanied by new translations of over twenty of the featured texts Bartram illuminates the complicated meanings of the Futurist designers graphic works in order to provide a new understanding of their extraordinary and influential visual language *Futurism: the Story of a Modern Art Movement* Rosa Trillo Clough,1961 Donated by the Newman College Ladies Committee **Russian Futurist Theatre** Robert Leach,2018-03-07 Russian Futurist Theatre explores is the first

book to comprehensively uncover the Russian futurist theatre in all its virtuosity and diversity Back to the Futurists Elza Adamowicz, Simona Storch, 2015-11-01 In 1909 the Italian poet Filippo Tommaso Marinetti's Founding Manifesto of Futurism was published on the front page of *Le Figaro*. Between 1909 and 1912 the Futurists published over thirty manifestos celebrating speed and danger, glorifying war and technology and advocating political and artistic revolution. This collection of essays aims to reassess the activities of the Italian Futurist movement from an international and interdisciplinary perspective, focusing on its activities and legacies in the field of poetry, painting, sculpture, theatre, cinema, advertising and politics. The essays offer exciting new readings in gender, politics, aesthetics, historiography, intermediality and interdisciplinarity. They explore the works of major players of the movement as well as its lesser-known figures and the often critical impact of Futurism on contemporary or later avant-garde movements such as Cubism, Dada and Vorticism. The publication will be of interest to scholars and students of European art, literature and cultural history as well as to the informed general public.

The Futurist Files Iva Glisic, 2018-10-26 Futurism was Russia's first avant-garde movement. Gatecrashing the Russian public sphere in the early twentieth century, the movement called for the destruction of everything old so that the past could not hinder the creation of a new modern society. Over the next two decades the protagonists of Russian Futurism pursued their goal of modernizing human experience through radical art. The success of this mission has long been the subject of scholarly debate. Critics have often characterized Russian Futurism as an expression of utopian daydreaming by young artists who were unrealistic in their visions of Soviet society and naïve in their comprehension of the Bolshevik political agenda. By tracing the political and ideological evolution of Russian Futurism between 1905 and 1930, Iva Glisic challenges this view, demonstrating that Futurism took a calculated and systematic approach to its contemporary socio-political reality. This approach ultimately allowed Russia's Futurists to devise a unique artistic practice that would later become an integral element of the distinctly Soviet cultural paradigm. Drawing upon a unique combination of archival materials and employing a theoretical framework inspired by the works of philosophers such as Lewis Mumford, Karl Mannheim, Ernst Bloch, Fred Polak and Slavoj Žižek, *The Futurist Files* presents Futurists not as blinded idealists but rather as active and judicious participants in the larger project of building a modern Soviet consciousness. This fascinating study ultimately stands as a reminder that while radical ideas are often dismissed as utopian and impossible, they did and can have a critical role in driving social change. It will be of interest to art historians, cultural historians and scholars and students of Russian history. Futurist Women Paola Sica, 2016-01-26 *Futurist Women* broadens current debates on Futurism and literary studies by demonstrating the expanding global impact of women Futurist artists and writers in the period succeeding the First World War. This study initially focuses on the local, the making of the self in the work by the women who were affiliated with the journal *L'Italia futurista* during World War I in Florence. But then it broadens its field of inquiry to the global. It compares the achievements of these women with those of key precursors and followers. It also conceives these women's work as an ongoing dialogue with

contemporary political and scientific trends in Europe and North America especially first wave feminism eugenics naturism and esotericism Finally it examines the vital importance and repercussions of these women s ideas in current debates on gender and the posthuman condition This ground breaking study will prove invaluable for all scholars and upper level students of modern European literature Futurism and gender studies
