2013-2014 Janice Elliott Montague, 2013-06-26 Routledge Q As give you the tools to practice and refine your exam technique showing you how to apply your knowledge to maximum effect in an exam situation Each book contains up to fifty essay and problem based questions on the most commonly examined topics complete with expert guidance and fully worked model answers These new editions for 2013 2014 will provide you with the skills you need for your exams by Helping you to be prepared each title in the series has an introduction presenting carefully tailored advice on how to approach assessment for your subject Showing you what examiners are looking for each question is annotated with both a short overview on how to approach your answer as well as footnoted commentary that demonstrate how model answers meet marking criteria Offering pointers on how to gain marks as well as what common errors could lose them Aim Higher and Common Pitfalls offer crucial guidance throughout Helping you to understand and remember the law diagrams for each answer work to illuminate difficult legal principles and provide overviews of how model answers are structured Books in the series are also supported by a Companion Website that offers online essay writing tutorials podcasts bonus Q As and multiple choice questions to help you focus your revision more effectively

The Illegality Defence in Law Edit Deutch, 2025-06-30 The Illegality Defence posits that a cause of action cannot arise from a wrongful act Barring a claim through the application of this defence contradicts considerations of corrective justice as the defendant is released from liability even though the claimant would otherwise have been entitled to a remedy This book re examines the application of the Illegality Defence framing it as a State deprivation of property for the public good underscoring the necessity of constitutional protections in this context Offering a novel approach the work explores the development interpretation and application of the Illegality Defence within a constitutional framework bridging the gap between private and public law By delving into the structured concepts of proportionality it aims to establish a more refined legal model which is sensitive to the protection of human rights specifically the human right to property This approach seeks to enhance legal certainty and predictability in the application of the Illegality Defence The study will be essential reading for academics and researchers working in the areas of legal theory human rights law and jurisprudence

Casebook on Tort Law Kirsty Horsey, Erika Rackley, 2023-12-30 All the leading cases illuminated by Horsey and Rackley's trademark clear and lively commentary The essential companion for undergraduate tort law students providing a comprehensive portable library of leading tort cases Horsey and Rackley bring together a range of carefully edited extracts combined with insightful commentary and annotated cases to help students identify and analyse the key elements Key features The only text of its kind to provide a comprehensive collection of the leading tort law cases for undergraduates Simple to navigate pulling all key case law together into one easy to use volume which students can work through systematically or use to reference specific cases Cases are accompanied by succinct author commentary highlighting the key elements of each case Annotated cases help students understand and analyse material New to this edition The seventeenth edition has been thoroughly revised to reflect recent developments in the law including *Fearn and others v The*

Board of Trustees of the Tate Gallery 2023 UKSC 4 on private nuisance Riley v Murray Court of Appeal 2022 EWCA Civ 1146 on defamation and Paul v Royal Wolverhampton NHS Trust Polmear v Royal Cornwall Hospital NHS Trust Purchase v Ahmed 2022 EWCA Civ 12 on psychiatric harm *Autonomous Organizations* Shawn Bayern, 2021-10-14 Under current business law it is already possible to give legal personhood or a very close surrogate of it to software systems of any kind from a simple automated escrow agent to a more hypothetical truly smart artificial intelligence This means that for example robots could enter into contracts serve as legal agents or own property Ultimately entire companies could actually be run by non human agents This study argues that this is not as scary as it might sound at first Legal theorist and noted software developer Shawn Bayern argues that autonomous or zero person organizations offer an opportunity for useful new types of interactions between software and the law This creative contribution to the theory and practice of law and technology explores the social and political aspects of these new organizational structures and their implications for legal theory A *Digest of the Laws of Texas* George Washington Paschal, Texas, 1873 **The Hidden Holmes** David Rosenberg (Professor of law), 1995 This bold book challenges a contemporary consensus on the titanic figure of Oliver Wendell Holmes Holmes is the acknowledged source of twentieth century tort law but David Rosenberg takes sharp issue with the current portrayal of Holmes as a legal formalist in torts who opposed the notion of strict liability and dogmatically advocated a universal rule of negligence primarily to subsidize industrial development Marshaling the evidence found in Holmes classic *The Common Law* and other writings the author reveals that the opposite was the case and in the process raises troubling questions about the present state of legal scholarship It was Holmes who founded the modern conception and justification of strict liability He envisioned an expansive role for strict liability to augment the negligence rule in preventing and redressing injury from industrial activity This recovery of Holmes theory of torts provides new insights into the nature of the jurisprudence that launched the American legal realist movement and also overturns standard interpretations of the history of tort law Rejecting the prevailing view that either strict liability or negligence reigned exclusively Holmes and his contemporaries reconciled the existence of both rules and advocated reforms of tort law to protect society from the unprecedented hazards of industrial life The parallel drawn by the book between their response and ours in grappling with the novel problem of mass torts confirms Holmes belief in the adaptive genius of the common law The Evolution from Strict Liability to Fault in the Law of Torts Anthony Gray, 2021-02-25 Gradually the law of tort has shifted away from a strict liability approach to one where fault predominates This book charts important case law documenting this shift It seeks to understand how and why it occurred Given that the *Rylands v Fletcher* decision is typically seen as a prime exemplar of strict liability it focusses particularly on that case as part of the historical development of tort law It considers the intellectual arguments made in favour of strict liability and for fault based liability Having done so it then focusses on particular areas of the law of tort including nuisance defamation and trespass It is somewhat anomalous that though most would view these as examples of torts of strict liability

fault considerations have become prominent in their application This presents an uneasy compromise where torts that are notionally strict in nature are infused with fault considerations often through exceptions or defences This book advocates for further development in the law of tort to better reflect a primarily fault based approach to liability at least in the common law This would make the law of tort more coherent *The Irish Jurist* ,1854 **The American and English Encyclopaedia of Law** David Shephard Garland, Lucius Polk McGehee, James Cockcroft, Charles Porterfield, 1899 *The Albany Law Journal* ,1883 **The Army Lawyer** ,1998
