

Test Report- VOC emission regulations in Europe

1 Sample Information

Sample identification	K-Flex ST-9 mm thick
Batch no.	-
Production date	22/05/2013
Product type	NBR-foam insulation
Date when sample was received	01/07/2013
Testing (start - end)	[REDACTED]

2 Evaluation of the Results

Germany

The tested product complies with the requirements of DIBt (October 2010) and AgBB (June 2012). (see 5.2)

France

CMR-Substances

The tested product fulfills the requirements of the French regulation DEVP0908633A of 30 April 2009 and DEVP0910046A of 28 May 2009.

VOC-emission classification

The tested product is classified to emission class A+. This recommendation is based on the French regulations of March 23 2011 (décret DEVL1101903D) and of April 19 2011 (arrêté DEVL1104875A). (see 5.3)

The product was assigned a VOC emission class without taking into account the measurement uncertainty associated with the result. As specified in French Decree no. 2011-321 of March 23 2011, correct assignment of the VOC emission class is the sole responsibility of the party responsible for distribution of the product in the French market.

Belgium

The tested product complies with the requirements of the Royal Decree for establishing threshold levels for the emissions to the indoor environment from construction products for certain intended uses (draft December 2012). (see 5.4)

History of Design and Design Law Tsukasa Aso,Christoph Rademacher,Jonathan Dobinson,2022-04-22 For the first time this book provides an up to date history of product design and product design law covering 17 countries Japan Korea China Singapore the United Kingdom Germany France Italy the Nordic countries Denmark Finland Iceland Norway and Sweden Russia the United States Brazil and Australia selected for their innovative or influential approach to design or design protection Each country is the subject of two chapters one on the history of design and the other on the history of design law authored by experts in design and intellectual property IP law This unique interdisciplinary approach explains why and how various national design protection systems that can include design copyright trade mark competition and civil laws developed making it an ideal book for students researchers and

lawyers The book also serves as an international survey of different national policy and legal responses to historical developments and specific design and legal issues allowing readers to consider their advantages and disadvantages and so is also recommended for policy and law makers as well as organizations that administer IP rights Topics include the subject matter of design protection procedural and substantive requirements design registration infringement and the overlap of design rights and other IP rights The chapters on design history provide further context to the historical development of these legal concepts by considering major design movements key designers and iconic designs and the current state of design The chapters highlight the connected and often complementary relationship between the two histories not only for each country but at the regional and international level often as a result of government policies trade colonialism immigration and globalisation Design and design practice continue to become more global and evolve with developments in technology At the same time design laws are not internationally harmonized and continue to develop at the national level with a number of significant changes occurring in recent years This timely book shows how the lessons of the past continue to inform the future direction of design and the legal systems developed to protect it **Defending the Swedish Model**

Gregg Bucken-Knapp, 2009-09-24 Across Europe the prospect of a rapidly shrinking workforce has put increased labor migration back on the political agenda However for many on the left concerns exist that less restrictive labor migration policies threaten core features of the social democratic project This is perhaps clearest in Sweden which in late 2008 adopted a liberal approach to third country national labor migration allowing employers to hire freely from outside the European Union *Defending the Swedish Model* explores the debate leading up to this reform focusing on the preferences of the Swedish Social Democratic Party SAP and the Swedish Trade Union Confederation LO While generally positive to the economic potential of increased labor migration these allies remained highly skeptical towards calls from employers and bourgeois parties for liberalization Bucken Knapp argues that the SAP and LO develop their labor migration policy preferences on the basis of whether specific reform alternatives are perceived as being consistent with or as undermining the Swedish model In the case of third country nationals both allies considered liberalization a threat to full employment aims instead seeking to preserve an influential role for the state labor market board and organized labor Bucken Knapp also focuses on the Swedish labor migration debate prior to the 2004 enlargement of the European Union showing how SAP concerns over potential abuse of the universal welfare state led to its support for transitional arrangements *Defending the Swedish Model* illuminates the challenges faced by social democrats and trade unions when considering the need for increased labor migration *Literary Digest*, 1918 *Acid Precipitation*, 1993-07 *Buch- und kunst-katalog: Schweiz. 1881.
